Inhaltsverzeichnis

1	Table	2
2	Image	3
3	Textindex	4

1 Table

Sone text before a table.

x	x	x
x	[1]	[HEY, foobie page 666]
x	x	x

Tabelle 1: some caption text for the table

Here is some text after the table.

2 Image

Here comes some image. This was one image (1).

Abbildung 1: some caption text for the image

3 Textindex

Using Kile to do the the index:

1. Make the index¹: Latex - Tables and Lists - Generate index
2. Generate an empty File tabocon.idx (use the name of the project)
3. Generate the index: Build - Compile - Makeindex

¹The indexes need to be compiled seperately - this will need index file.

Index

generate the index, 4

index.idx, 4

makeindex, 4

Abbildungsverzeichnis
